Dues are calculated based on the number of a company's "bulk plants" as defined by the 2004 edition of NFPA 58. The NFPA 58 standard defines "bulk plant" as: "A facility where the primary function is to store LP-Gas prior to further distribution. LP-Gas is received by cargo tank vehicle, or pipeline, and then distributed by portable container (package) delivery, by cargo tank vehicle, or through gas piping."
